

Orthopaedic Update for the Ambulatory Clinician Wednesday 13th February 2019

This Southern Regional Meeting comprises of two evening sessions separated with a buffet dinner. The lectures are specific to the horse's distal limb, based on the latest in diagnostics and treatment from several different viewpoints. This should be of interest to those studying for RCVS related modules and is aimed at the ambulatory clinician.

WHERE

All England Jumping Course
Hickstead
West Sussex
RH17 5NU

COURSE FEES

BEVA Members	£50
BEVA Student Members	£25
BEVA Nurse Members	£25
Non-Members	£100
Farriers	£50

(N.B farriers please contact the BEVA Office to book quoting your WCF membership number)

KEY LEARNING OBJECTIVES

- Develop an understanding of the treatments available for joint and ligament injuries
- Refresh your knowledge on remedial farriery
- Learn practical skills in the imaging of the distal limb
- Be able to confidently identify significant abnormalities within the distal limb
- Interpret significant MRI changes

COURSE ORANISER

Dr Pauline Williams BSc, MSc, MA, Vet MB, Cert EM (Int Med), MRCVS, West Sussex
Dr Simon Staempfli Dr Med.Vet,DipACT,Dip ABVP,MRCVS, West Sussex

COURSE SPEAKERS

Chris Baldwin BVetMed MRCVS, West Sussex

Sarah Boys Smith MA VetMB CertES(Orth) DipECVS Dip ACVSMR MRCVS, Suffolk

Tim Mair BVSc PhD DEIM DESTS DipECEIM AssocECVDI FRCVS, Kent

Ralph Rennison DipWCF

SUITABLE FOR RCVS MODULES

C-E6, C-E7, C-E 16, C-E 15, B-EP3

FULL PROGRAMME

17:30	Registration and Coffee	
18:00	What is new in the diagnostic imaging of the distal limb	Boys Smith
18:45	Update on biological therapeutics for joints and ligaments	Baldwin
19:15	Discussion	
19:20	Buffet Supper	
20:10	MRI of the distal limb – what the last 15 years have taught us	Mair
20:45	Remedial Farriery – What works for me	Rennison
21:15	Discussion & End of Meeting
